ABOUT

AI-Augmented Senior Product Manager with 10+ years of experience building and scaling digital products across Insurtech, B2B SaaS, Mobility, and Logistics. Expert in 0-to-1 product launches (Qoala Plus, CDC University Platform), scaling high-concurrency architecture (60k to 1.5M tx/month), and embedding LLM/MCP workflows directly into IDE-based prototyping (VS Code & Antigravity IDE). Proven track record of delivering measurable business impact—from growing GMV 10x to directly driving 32% ARR. Thrives as an Individual Contributor (IC) in remote, hybrid, and cross-functional environments.

SKILLS

Product Management	0-to-1 Product Building, Product Vision & Strategy, Roadmap Development, Competency-Based Assessment Systems, Enterprise Onboarding & Retention Optimization, Cross-Functional Collaboration
Tools & Prototyping	VS Code, Antigravity IDE, MCP (Model Context Protocol), Jira, Confluence, Metabase, Figma, Asana
AI & Tech Stack	AI-Augmented PM Workflows, LLMs (Gemini, Claude, ChatGPT), Computer Vision ML Integration, High-Concurrency Queueing (Go Stack)
Languages	English (Professional), Bahasa Indonesia (Native)

EXPERIENCE

- Product Manager • [ASTRNT, Jakarta](#)

July 2022 - Present

 - Initiated and built the **CDC (Career Development Center) University Platform** from 0-to-1 for top-tier university partners, slashing candidate screening turnaround time by **83%** for enterprise clients.
 - Engineered critical enterprise onboarding workflows, Candidate Transfer tools, and HRIS integrations, directly driving **32% of Annual Recurring Revenue (ARR)** and maintaining a **70% customer retention rate**.
 - Educated B2B enterprise clients to shift talent acquisition paradigms from traditional ATS keyword filtering to **asynchronous video & competency-based assessment systems** for mass hiring.
 - Embedded **MCP (Model Context Protocol)** and IDE-based codebase prototyping (VS Code & Antigravity IDE) to rapidly build production-ready feature prototypes (e.g., *Dynamic Reminder for Reviewers* in 1–2 hours), cutting feature validation turnaround from **3 days down to 1 day**.
 - Spearheaded strategic growth initiatives to accelerate enterprise sales, driving a **15% increase in Sales Qualified Leads (SQLs)** and achieving **80% delivery on quarterly goals**.
- Product Manager • [Qoala, Jakarta](#)

November 2018 - November 2020

 - Built and launched **Qoala Plus from 0-to-1** for insurance agent partners, onboarding **200+ active agents** and generating **IDR 50–70 Billion GWP (Gross Written Premium)** in the first 6 months.
 - Architected auto-scaling concurrent queuing (Golang stack) to resolve single-node bottlenecks, scaling monthly transaction volume from **60,000 to 1.5 Million (25x growth)**, powering 80% of total policy issuances and driving **10x GMV**.
 - Integrated Computer Vision ML pipelines with UI visual framing guides for automated travel/gadget claims (**1–2 minute instant turnaround**) and built a 24/7 visual assessment dashboard for adjusters, reducing car claim processing from weeks to days.
 - Spearheaded international market expansion by pioneering cross-border bus micro-insurance (MY-SG) for border transit luggage loss with major ticketing partners, opening new regional revenue streams.
- Product Manager • [XWORK, Jakarta](#)

September 2017 - November 2018

 - Spearheaded B2B market discovery and 0-to-1 customer validation to uncover new commercial opportunities, driving early product-market fit.
 - Aligned product positioning and go-to-market strategies with engineering roadmaps to accelerate feature adoption.
- Product Manager • [Porter, Jakarta](#)

November 2016 - September 2017

 - Collaborated with cross-functional engineering, design, and operations teams to deliver logistics products on schedule, aligning roadmap priorities with core business goals.
 - Facilitated multi-stakeholder communication to streamline operational workflows and improve user satisfaction.
- Product Management & Sales Operations Coordinator • [PegiPegi.com, Jakarta](#)

July 2012 - January 2016

 - Optimized CRM processes to enhance contract renewals and streamline sales operations.
 - Resolved complex operational bottlenecks, increasing system efficiency and customer satisfaction.

EDUCATION

Bachelor of Computer Science August 2008 - August 2012
[KALBIS Institute, Jakarta](#)
