ABOUT

Product Manager with 10+ years of experience building and scaling digital products across insurtech, logistics, mobility, and B2B SaaS. Proven track record of delivering measurable business outcomes — from growing GMV 10x to directly contributing to 32% ARR. Combines deep technical grounding with an AI-augmented approach to product development, leveraging large language models to accelerate documentation, discovery, and strategic planning. Thrives in remote, cross-functional environments and is passionate about creating products that are both user-centric and business-driven.

EXPERIENCE

Product Manager • ASTRNT, Jakarta	July 2022 – Present
- Delivered critical onboarding features for enterprise accounts, directly contributing to 32% of Annual Recurring Revenue (ARR). - Spearheaded strategic growth initiatives to accelerate sales, driving a 15% increase in Sales Qualified Leads (SQLs). - Maintained a strong customer retention rate of 70% through product reliability and UX improvements. - Accelerated product delivery cycles by integrating proactive AI agent workflows to rapidly draft technical PRDs, architecture use-cases (e.g., Auth & Session Management), and Go-To-Market playbooks, reducing documentation turnaround time by 30%. - Defined and executed product roadmaps, consistently achieving 80% delivery on quarterly goals. - Led Agile and Scrum practices, ensuring on-time, high-quality deliverables in a remote environment. - Collaborated cross-functionally with engineering, design, and marketing teams to optimize customer journeys and drive engagement.	
Product Manager • Qoala, Jakarta	November 2018 – November 2020
- Led the integration of advanced AI models to automate core processes, such as instant travel insurance claims and computer-vision damage assessment for car and phone insurance, reducing manual review times and improving user experience. - Spearheaded data-driven product strategies, increasing GMV by 10x. - Launched the first international product with a major Bus Ticketing Startup, boosting transaction volume by 17x and market presence. - Led development for high-volume solutions contributing to 80% of policy issuance transactions, scaling monthly volume from 60,000 to 1.5 million (17x–25x).	
Product Manager • XWORK, Jakarta	September 2017 – November 2018
- Led market research and customer analysis to uncover new opportunities, driving product-market fit. - Streamlined product marketing strategies to align with technical development, enhancing performance.	
Product Manager • Porter, Jakarta	November 2016 – September 2017
- Collaborated with cross-functional teams to deliver high-quality products on schedule, aligning roadmap priorities with strategic objectives. - Facilitated stakeholder communication to ensure priorities addressed user needs and business goals.	
Product Management & Sales Operations Coordinator • PegiPegi.com, Jakarta	July 2012 – January 2016
- Optimized CRM processes to enhance contract renewals and streamline sales operations. - Resolved complex operational issues, increasing system efficiency and user satisfaction.	

EDUCATION

Bachelor of Computer Science KALBIS Institute, Jakarta	August 2008 – August 2012
